FATALLY WOUNDED WIFE,

THEN KILLED HIMSELF. Probability That Woman Was Shot While Trying to Prevent Suicide.

Athol, Mass., Oct. 18.—Harry G. Wright today fatally wounded his wife and then killed himself with a rifle. Mrs. Wright dragged herself from her home, where the shooting occurred, to the house of a relatives, across the street, where she died. The possibility that Mrs. Wright was shot while trying to prevent her husband taking his own life was being considered by the police tonight. Wright had been out of work for some time and was de-

Springfield, Mass., Oct. 18.—E. W. Wicks, president of the Jersey City club of the International league, was here today with a view of getting this city and Hartford into the International

tional league next year.

After a conference with W. E. Carey, president of the Springfield Athletic association, Mr. Wicks said he would report favorably on Springfield to President E. G. Barrow of the International league and would report ternational league and would go over the situation in Hartford tomorrow with James H. Clarkin, who was the owner of the Eastern association franchise in that city.

Mr. Wicks stated his league intended

to ask the national association for per-mission to place clubs in Springfield and Hartford. James H. O'Rourke of Bridgeport, onn., who was president of the Eastern association, claims the territory is held by that organization and cannot be encroached on by any clubs in or-ganized baseball.

WAR SPECIALTIES ACTIVE. United States Steel Central Feature in the Closing Hour.

New York, Oct. 18.—Higher prices were registered by a majority of the better known stocks today, with renewed activity in war specialties, but newed activity in war speciatics, but trading lacked much of its recent vigor until the final hour, when United States Steel became the central feature, rising 2 1-8 to 85 3-4, its best price since 1910. This was achieved by purchases of individual lots running

purchases of Individual lots running from 1,000 to 6,000 shares.

Gains in the war group were general, but extremely variable. New records were made by Bethlehem Steel, which rose 11 to 495, Willys-Overland 10 to 258, Studebaker 5 3-4 to 167 3-4, American Steel Foundries 5 3-8 to 70 8-8, U. S. Industrial Alcohol 7 1-2 to 107 1-2, and Central Leather 1 to 55 1-4 Leggett & Meyers one of the 10--4. Liggett & Meyerε, one of the to-acco issues, also shared in this disinction, advancing 2 1-2 to 245. In addition to these records, sharp gains were made by Bethlehem Steel preferred, General Motors, Maxwell common and second preferred, West-General Electric,

inghouse, General Electric, Crucible Steel, Virginia Coal, Iron and Coke, and several of the metal shares, nota-bly American Smelting. Canadian Pacific led the rails, rising 4 points to 169, with marked strength in St. Paul, Great Northern, Baltimore and Ohio, Eries, New Haven and some of the southern group. Harrimans and coalers were up one to two points, but lost some ground later, profit-taking making for some irregularity at the active close. Total cales amounted to

930,000 shares. 930,000 shares.

The restraint which marked dealings in the forenoon was predicated on rumors dealing with the tone of Washington's note to Great Britain and further selling for foreign interests. Offerings through London was again estimated at a substantial figure, but the setback resulting from this liquida-

tion was only temporary.

spend next summer at Shadow Lawn, the fifty acre estate of the late John spend next summer at Shadow Lawn, the fifty acre estate of the late John A. McCall, at Elberon. near Long Branch, N. J. which is now owned by Colonel J. B. Greenhut. The president, addressing a delegation from New Jersey, asked that those who arranged to get the McCall estate for him should permit him to pay as rental the amount he paid for the house of Winston Churchill at Cornish, N. H., which the Wilson family has occupied for the last three summers. If the committee pleased, he said, it could give the amount to charity. Shadow Lawn was built in 1902 for John A. McCall, the insurance company president, at a cost of more than \$500,000. The house is three stories high and contains thirty-two rooms, which are richly furnished. A runner for one of the seventy-five foot halls was bought abroad at a cost of \$50,000. Two flights of stone steps run up the terraces to the top of the rise of ground on which the house is built. The entrance is guarded by a large dome level with the roof of the second floor, supported by eight columns. A porch about 250 feet in length runs about the north, east and south sides of the house, commanding a view of the ocean and of beautiful country. The building is of wood and
